Dealing with calls	
Answering an Incoming Call	Lift the handset or press the flashing Flex button (as needed), the call will be connected. You may also use pick up codes assigned by your installer engineer to answer other ringing handsets from your desk phone. To answer a call on another extension that is programmed to one of the phones 12 flex keys, press the flashing flex key <i>before</i> lifting the handset.
Making an External Call	Lift the handset and press a free flex key allocated to a line, or dial 9 to pick up an outside line. Once you have the outside line, dial your number.
Making an Internal Call	Lift the handset. Dial the extension number or press the flex key assigned to the contact.
Rejecting a Call	Press the DND button when a call comes in - the caller will get a busy tone.
Placing a call on hold	During a call, press the Hold/Save button. To reconnect the call, press the flashing line key.
